

IN THE DRAWINGS:

The attached replacement sheet includes a change to FIG. 3; particularly, Block 212, originally labeled a "BRIDGE CIRCUIT", now is corrected to bear the label --CHIP SET-- as described in the specification on page 11, lines 1 and 8.

For the convenience of the Examiner, an annotated sheet, showing the change made, is also attached. Approval of this change to the drawings is respectfully requested.

FIG. 3
